

Website Progress — Mapped to Your Brief

Subject: Website progress — built against the brief you shared

Hi Billy,

Quick rundown of what's been built on **billybeck.com**, mapped back to the brief from the Apr 3 / Mar 24 / May 2 sessions.

The thesis on every page: self-mastery, not fitness. *Live like a lion, not a lamb*. Gym-website language stripped out, sacred phrases woven in, every page funnels to Legion of Lions.

Homepage — Hero rebuilt as *"LIVE LIKE A LION."* (not a fitness CTA). Lion-vs-Lamb section, charity/movement block, Three Pillars, coaching teaser → waitlist, single CTA → Legion. *Pending:* live Impact Counter (needs Stripe/GHL webhook) and the \$7 booklet opt-in (needs the 3-page content).

About — *"Earned. Not inherited."* Credentials block (MET-Rx World's Best x2, Fitness Hall of Fame, 1,000+ Lions). Three Pillars + Eight Habits structured into the philosophy.

Legion of Lions — The money page. \$97/mo · \$997/yr, unlimited seats. Replaces "BB3 Blueprint" framing site-wide. Cobalt blue reserved only for the Blueprint sub-brand.

Coaching — Reframed as **waitlist only**. Banner reads *"SPOTS ARE CLOSED."* BB3 App Cohort and 1-on-1 → "Join the Waitlist." Elite tier → "Request Referral," not promoted.

Testimonials — Tony Robbins, Sylvia Ferrero, Kim Herring up top. Before/after rebuilt **side-by-side on mobile** (your specific ask). Real photos only — placeholders waiting on yours.

Blog (Field Notes) — *"The Pen of a Lion — written by Billy, no ghostwriters."* You publish directly from WordPress; the page updates automatically. Single-post template fully on-brand. Email capture live.

Contact — kept, restyled for v6 consistency.

Still open (waiting on inputs)

- HD logo files (PNG + SVG)
- Brand red hex from Simon
- 3-page Blueprint booklet content for the \$7 lead magnet
- Real before/after photos + app screenshots
- DNS access for [info@](mailto:info@billybeck.com) / [assessment@](mailto:assessment@billybeck.com)
- GoHighLevel CRM migration + dedicated business number (staging first)
- Cloudflare ownership resolution so GSC verification can complete

Asks to close the loop

1. Sign-off on the rebuilt pages
2. HD logo, brand red, booklet content, before/after photos
3. 30-min call to hand the WordPress publishing flow to Andrea

Everything else gets driven from this side, monthly report against GA4 + GSC.
