

Client Needs Brief — Billy Beck III

Client: Billy Beck III **Brand:** billybeck.com / Legion of Lions **Compiled from:** Onboarding (Apr 03), Discovery (Mar 24), Strategy & Site Review (May 02)

1. Strategic Vision

The site must shift away from a generic "personal trainer / gym / get-ripped" identity and toward a **transformation-through-self-mastery** brand. Fitness is the *vehicle*, not the offer. The offer is identity change — the **Lion vs. Lamb** metaphor — taught through training, nutrition, and mental conditioning.

Core thesis: *"Where the mind goes, the body follows."* The body is the proving ground for self-mastery; the lasting outcome is a heart-driven leader who can serve, contribute, and lead without burning out.

5-year goal: build the **Legion of Lions** community to 1,000 members first, then scale toward 33,000+ as the recurring-revenue spine. Coaching becomes the upsell, not the front door.

2. Audience & Anti-Audience

Dream customer

- Heart-driven leaders, entrepreneurs, Tony Robbins / Platinum Partner archetype
- "Committed achievers" usually 40+ entering the magician archetype phase
- Want to transform body **and** mind; reject hustle-burnout culture
- Believe they can sculpt their life; willing to do the work

Anti-audience / messaging to avoid

- "You're not enough unless you have a six-pack" — explicitly reject this
- Shortcut culture, hack culture, body-shaming
- Generic trainer / gym vibes
- Profanity in any AI/clone output

3. Site Information Architecture

The site needs the following pages, each tuned to a specific role in the funnel:

Page	Purpose	Notes
Homepage	Drive movement + impact + offer	Lead with Lion-vs-Lamb story, not products
Legion of Lions (money page)	Primary \$97/mo offer	Replaces / re-frames the BB3 Blueprint
Coaching	Waitlist only	Position exclusivity: "spots closed, join waitlist"
About — Billy Beck III	Founder / philosophy	Three Pillars, Eight Habits, credentials
Testimonials	Social proof	Side-by-side before/after; app screenshots
Blog	SEO / AEO content engine	Auto-posted from AI Copywriter pipeline
Contact	Direct line	Already restyled; keep current treatment

Out of scope for now: the Billy Beck III brand and Legion of Lions remain unified under billybeck.com. The legionalliance.com domain is held for future separation.

4. Homepage — Required Sections

- 1. **Hero** — bold typographic statement of the movement; not a fitness CTA.
- 2. **Lion vs. Lamb story** — the core philosophy in a scannable section.
- 3. **Featured testimonial / before-after** — high-quality, real, no AI-faked imagery.
- 4. **Impact section** — charity, food bank, anti-trafficking work, framed as the *movement* not as self-promotion.
- 5. **Live Impact Counter** — meals provided, children helped. Counter must increment on book/membership purchases.
- 6. **Three Pillars** — Physical Training · Effective Eating · Mental Conditioning.
- 7. **Coaching teaser** → click out to waitlist (not a hard sell).
- 8. **Lead magnet** — book opt-in (~\$7) that funds ~28 meals per purchase. New shorter "blueprint" booklet replaces the current 7-pillar PDF.
- 9. **CTA** → **Legion of Lions** — primary conversion target.

5. Visual & Brand Direction

Element	Direction
Primary palette	Black / white / red — keep, but use the project's actual red (Simon has the hex). Current red reads too soft.
Tone	Decisive, high-impact, "do it or don't" — not soft, not pastel
Secondary palette	Cobalt blue reserved for the Blueprint sub-brand only
Typography	Current muscular/fitness-aligned font pairing approved — keep
Logo	Replace — current logo is low quality; need a high-resolution version (PNG + SVG)
Imagery	Real photos only — no AI-faked transformations. App screenshots OK, will be supplied.
Readability	Hero text currently hard to read on large screens — increase contrast / size
Mobile testimonials	Before/after side-by-side left-to-right , not stacked top/bottom

6. Offer Architecture

Tier	Price	Limit	Role
Legion of Lions (membership)	\$97 / month or \$997 / year	Unlimited	Front door, recurring revenue, community
Group Coaching (BB3 app)	\$6,000 / 6 months · \$10,000 / year	~100 active	Mid-tier, waitlist-driven
1-on-1 Coaching	~\$5,000 / month	Few seats	Premium, referral-driven
Elite (Tony-level clients)	6 figures+	Handful	Off-site, not promoted
Lead magnet booklet	~\$7	n/a	Funds meals; impact-counter trigger

Funnel logic: all marketing drives to Legion of Lions. Coaching is presented as a waitlist. The booklet is a low-friction first transaction that doubles as a charitable contribution.

7. Brand Voice & Sacred Phrases

Voice: transformative, authentic, courageous, decisive. Sincere over slick. "If I can do it, you can do it" — not "look how impressive I am."

Sacred phrases to use:

- "Live like a lion, not a fearful lamb."
- "Challenge creates change."
- "Where the mind goes, the body follows."
- "Victory" — used as an anchor in client comms.
- "Devoted, humble student of self-mastery."

Phrases to avoid:

- Any profanity
- "Get ripped," "shred," "transform your body in 30 days"
- "You're not enough unless..."

8. Required Site Improvements (Concrete)

High priority

- ☐ Replace homepage hero copy and CTA — drive to Legion of Lions, not generic fitness
- ☐ Rebuild palette around the correct project red (pull hex from Simon)
- ☐ Replace logo with a high-resolution version
- ☐ Add live Impact Counter on homepage (verify WP plugin or build custom)
- ☐ Add charity / movement section to homepage
- ☐ Build new lead-magnet booklet opt-in (paid ~\$7, triggers meal counter)
- ☐ Convert all before/after testimonial blocks to side-by-side, mobile-tested
- ☐ Reframe Coaching page as a waitlist (not active enrollment)
- ☐ Rename / restyle BB3 Blueprint as "Legion of Lions" throughout
- ☐ Add Blog page wired into the AI Copywriter pipeline
- ☐ Add About page with Three Pillars + Eight Habits + Hall of Fame credentials

Content rewrites

- ☐ All page copy must be reviewed against the self-mastery thesis — strip "gym website" language
- ☐ Provide a 3-page "blueprint booklet" version of the new book as the entry-tier asset
- ☐ Build standardized email sequences for each entry point (UPW, Life Force, organic)

Technical

- ☐ Set up GA4 + Google Search Console + Microsoft Clarity (heatmaps)
- ☐ Provision dedicated email addresses (e.g. [info@](#), [assessment@](#)) for opt-in flows
- ☐ Provision dedicated business phone number for SMS / voice via GoHighLevel
- ☐ Migrate CRM workflow to GoHighLevel; keep Kajabi running for existing subscribers
- ☐ Resolve Cloudflare ownership / multi-account access so search-console verification can complete
- ☐ Connect Stripe through GoHighLevel for new offers

Marketing automation (60-day build)

- ☐ AI Clone of Billy via Hadrian (3–5 looks, on-brand backdrops)
- ☐ Voice clone via 11Labs (Professional Voice Clone tier)
- ☐ AI Copywriter engine via Claude (identity doc + copywriting project)
- ☐ YouTube clone pipeline + editor SOPs

- [] Pipeline stages, lead scoring, automated follow-up sequences in GoHighLevel
-

9. Constraints & Non-Negotiables

- **No AI-faked photography** of transformations. Real before/after only.
 - **Don't replace the existing public site without involving Simon** (the current web maintainer treats it as his own); stage the new build in parallel.
 - **Don't overwrite the WordPress page from REST without regenerating Elementor cache** — the editor will look fine while the frontend stays stale.
 - **No `html` widgets** in any Elementor layout pushed via REST — frontend renders break.
 - **Staging-first** for every CRM / automation change — never point new flows at production until verified.
 - **Andrea's bandwidth is limited** (two toddlers); systems must be operable by her with one VA assistant. No tooling that requires Billy in the loop daily.
-

10. Success Criteria

The site is "done" when:

1. A first-time visitor understands within 10 seconds that this is a movement about self-mastery, not a fitness program.
 2. The homepage drives to Legion of Lions with a single, unambiguous CTA.
 3. Every transactional moment (book purchase, membership, donation) updates the live impact counter.
 4. Coaching is positioned as exclusive / waitlisted, not actively sold.
 5. Andrea can publish a new blog post, send a campaign, and read meaningful funnel data without involving Billy.
 6. The brand voice on the site, in emails, and from the AI clone is indistinguishable from Billy's lion-vs-lamb teaching.
-

End of brief.
